

Introductory Cover Letter to the Formal Letter

**To the Rt. Hon. Stephen Harper
Prime Minister of Canada**

******JULY 2010******

Title : The Public Exposure of Criminal Acts:

Overview: Criminal Acts Committed to Influence Federal Politicians ,Federal Programs to Obstruct Justice, Violate Federal Mandates, and the Violation of the Charter of Rights and Freedoms :The Results,a Legally Defined Criminal Conspiracy. A Formal Request for Documentation to Prove the Allegations and bring Felony Fraud charges against Douglas Wright and the University of Waterloo. A Demonstration of Why So Many Failures of the Health System has Harmed the Public; From False Cancer Diagnosis to Listeria Contamination of the Food Supply to eHealth and Cancer Care Consultations Scams to Mirapex to Lyme Disease Concerns. Such Serious Allegations Warrant the Involvement of the Prime Minister. To Expose Cronyism and the Betrayal of the Public Trust :Personal Gain from Unjust Enrichment, Fraud and Conversion. And Given the Statements of 5 July 2010 at Perimeter Institute with Dr. Hawking, ONLY a Public Legal Inquiry can Suffice to Prove that You, (with all due respect) Yourself, Are Not

a Liar Misusing Taxpayers' Monies for the Elite at the Expense of the Middle and Working Class Children.

Dear Prime Minister Stephen Harper:

First , Sir, make no mistake , this is a very serious letter meant for the public domain, and will measure whether or not you support law and order, the public trust and safety ,and the Charter of Rights and Freedoms. My name is Edward A. Greenhalgh , and I expect to end a very regrettable affair with your help by ordering the release of federal materials so criminal proceedings and other may go forward. The over all material in the Formal Letter (accompanying) will be seen to be appropriate to send to the Prime Minister of Canada as it pertains to issues of national (and international) concern; such as the misuse of political power and privilege by influential individuals for a Criminal Conspiracy (legal definition) ,and the violation of federal programs that have direct relevance to medical research,its funding ,and education ; and the public safety. And to test if the Charter of Rights and Freedoms is real or a fraud. The public will be the ultimate judge of us all.

I am asking for the release of federal documents :
1.The Ministry of Health documents describing the

research carried out by Dr. J. C. Carlson at the University of Waterloo in derogatory terms. This would be under the watch of Dr. H. G. Friesen. 1B. The subsequent NIH documents for the J. C. M. Riley US scholarship funds?

2. Proof that Federal agents under the R.C.M.P. during the criminal allegations against the University of Waterloo presented said documentation to Dr. Douglas Wright, then President and Chancellor of the University of Waterloo, and Dr. J. E. Thompson who was Dean of Science and Head of Biology at the University of Waterloo at this time and would have had to have given required Signed Assurance to the National Institutes of Health (the United States of America federal government) in order to acquire an NIH graduate Scholarship for J. C. M. Riley, asking them if they recognized their signatures and that they had signed for the scholarship under the FULL provisions of the program (DEMANDING FULL HONESTY)? As Document One (above) clearly proves the research was substandard, and the University of Waterloo had been advised by lawyers for E. A. Greenhalgh of the situation, then Douglas and Thompson had clearly, and with premeditated intent had committed felony fraud. If you can not provide the documentation proving that the R.C.M.P. had so confronted Douglas and Thompson, then this subsequently proves the R.C.M.P.

had joined the conspiracy to cover up fraud and were in fact themselves obstructing justice in order to protect the University of Waterloo from felony fraud charges.

Clearly, this represents very serious allegations and violations , not only of federal mandates, regulations , and laws , but the public trust as well. By addressing you directly, and the other leaders of parliament, the public will be in a position to help the cause of justice: it will be quite evident to all that the federal government of Canada can conspire to cover up federal fraud. (Now given the allegations of General Hillier concerning federal political misconduct and cronyism, such allegations have another basis in fact).A motive may also involve the direction of federal funds to benefit the private pharmaceutical industry (and other private businesses) in order to garner future private benefits for politicians upon retirement and other : misuse of public office for private gain. That is in violation of the Constitution beyond the Charter of Rights and Freedoms , but more importantly(?) Federal Policy and Law. The accompanying formal letter goes into extensive detail to the overall importance of this matter. As well a the material sent to President Obama , of the United States government.

I can not overly stress how serious I am, but now the public can begin to appreciate to the fullest how much harm has occurred , and the danger they are in from White Collar criminals in positions of power and authority who have extensive political and financial connections so they not only feel that they are above the law, but can openly flaunt it. The allegations are very serious , but more importantly are easily proven. I look forward to everyone's' reply. Thank you.

Edward A. Greenhalgh
