Dear Mr. Justin Trudeau,

Please review all of the enclosed serious material sent to Prime Minister Harper, President Barrack Obama, and the Leaders of the Opposition . You are receiving a copy of the request I sent your father, Hon. Pierre Elliott Trudeau several years ago while he was still alive and the reply from his lawyer. Essentially you and your father have unfinished business regarding the question whether or not the Charter of Rights and Freedoms, and consequently, your father's legacy , are a fraud. If they are not, then you will help me and uphold my Charter of Rights and Freedoms. Otherwise, both are frauds , and it is not a complete waste of

time addressing you, but further proves to the public the tremendous obstacles I've had to deal with. Very serious stuff.

On a personal note, I am my father's son, and have acted in my search for justice as he would have approved. Sadly, he is dead , as is your own father, but did not see me succeed . However, before he died I knew he respected and loved me. How about yourself? Will you do your father's legacy proud? Or was it just smoke and mirrors ?

Please review all the enclosed material. I am asking PM Harper to release federal documents so criminal felony fraud charges may be laid against Dr. Douglas Wright of the University of Waterloo by the DOJ. Thank you.
