Dear Mr. Ignatieff,

As the Leader of the Opposition I am requesting you to ask Prime Minister Stephen Harper to release federal documents which will be turned over to President Barrack Obama of the United States and the Dept. Of Justice so felony fraud charges may be laid against Dr. Douglas Wright of the University of Waterloo . The explanations are on the enclosed materials being sent to Prime Minister Harper (Canada) , and President Barrack Obama (USA). My Charter of Rights and Freedoms have been violated by malicious acts of suppression and blacklisting by the University of Waterloo in order to cover up scholarship

fraud and other wrong doing. My past research (cancer theories etc) have been vindicated , while the new research theories regarding Global Warming/Climate Change and emerging diseases are too serious to allow the black listing to continue. If you support the Charter of Rights and Freedoms of ordinary Canadians , you must ask the Prime Minister to release the material . Thank you.
