Title: PROSPERITY vs. DISASTER:

[Air and Water Lethal to Man]

A Good Choice and Realistic

Possibility in Return for

Justice and Accountability

Direct relevance to World Climate Change

The Chinese watch for strong leaders, so what will the world say about anyone who claims to support human rights but will condone blacklisting and suppression? What would MLK?

Public Domain/Internet

Dear President Barack Obama:

Part of the reason you are in receipt of this material is your belief in Martin Luther King Jr. , and

social justice .Dr. King did not believe that there was a limit to when justice could be served , and if a cause is just then it should be heard : especially when corruption can be proven .Besides exposing corruption and evil, I wish also to bring something good and useful to the world; and as someone else (to whom you have been compared)once said,and I paraphrase,"ask not what the world can do for you , but what you can do for the world."Isn't this the common ground we can meet on , and doesn't it fit in with your public message of service?

You said, regarding the Gulf Oil Crisis that the people of the South Coast have been through tough times before, but **this time their lives will never be the same again!!!** Dear President Obama, look how hard it was to contain the oil spill, now imagine if that had been 5 to 10 new emerging diseases that were air and water borne and man had no immunity? **If you do not listen, no one may have a life even.** The present financial crisis is hiding a more serious problem that your adviser, former VP Al Gore will tell you is Global Warming, but I state that mankind has less than 50 years before extinction due new emerging diseases for which there are no immunity . Noam Chomsky (Kyoto winner etc.) has commented that my theories may be of phenomenal importance to mankind. The former Surgeon General to President Bill Clinton, Dr. Jocelyn Elders has regretted my treatment. Plus other prominent people have commented in my favour, but they could not overcome the blacklisting of corrupt businessmen. Nonetheless, my theories could help you coordinate with Russia, China and the EU to direct financial resources to prevent the new diseases and help develop energy security. This would be a great way to help stimulate the world economies and international stability. You and the other world leaders must see yourselves as being in the position of 1650,--16 years before the Black Death would strike Europe killing millions. You will ask to commit your resources to preventing a tragedy all the while developing secure energy resources. The people of 1600 century Europe could not work together and widen streets nor improve

sanitation,so they died by the thousands: **CAN WE IN THE 21st CENTURY DO BETTER?**I believe this alone is a valid reason for approaching you and asking for help. **And remember those who warned of possible oil drilling disasters in the Gulf before it happened; can you afford not to help?**

Good people often must overcome the malice of bad people , and now the exposure of their corruption serves to prove my case to you; and like Dr. King I have remained non-violent and committed in the face of great hardships while seeking justice. The public is all too aware of the harm caused by corrupt business practises as seen from ENRON to Madoff and the Wallstreet Bailout to the endangerment of lives from contaminated foods, the latest being salmonella/listeria : in peanut butter and snack foods and in meats: all have tried to escape accountability and responsibility and often the federal government has helped them to do just that. The businessmen with whom I have dealt are so powerful and influential that they caused US federal personnel to lie in writing and obstruct justice in order to cover up their wrongdoings. Personnel under the DOJ and PHS : are you going to stand for this kind of injustice and corruption?Given your present stance on the CIA torture inquiry you appear to be a strong leader of strong principles and integrity. And , as of Christmas 2009 and the failed airliner bombing by the young Nigerian terrorist who had been flagged by many people to US officials , only to be allowed on a plane, it was only by dumb luck or the Grace of God that no one died. And you said this was unacceptable,well, sir, I am approaching you with more failures to enforce federal regulations and laws that were meant to protect the American public. And , so,there is the allegation that business interests at the University of Waterloo/RIM:Research in Motion(the Black berry)/a Director with Com Dev, contributed money ,either directly , or indirectly through a foundation, to former President Bill Clinton; and then the question must be raised did this influence buying cause the obstruction of justice at the DOJ/PHS covering up the fraud ? Serious allegations demanding public review. And then

the question must also be raised, do the past contributions by these alleged parties also buy obligations from Secretary of State , Hilary Rodham-Clinton today? And there are no statutes of limitations for federal fraud committed against the Government of the United States. Are you, President Obama, your own man , standing up for the principles of justice and will you see that right is done ? Are the private business interests of Canadian businessmen more powerful than the CIA's? Can President Obama be bought by special interest lobbyists? With the Christmas 2009 near bombing of the airliner you said that the system needed to be fixed; well sir, the system has been broken for a long time , and now is the time for accountability from people who deliberately give false assurances so to enjoy personal gain. The same type of assurances given saying ALL precautions had been made in the Gulf for safe drilling offshore!!!

Present day the public can see with the 77 million dollar OSC fines of RIM (Research in Motion) that their personnel, and those associated with the University of Waterloo have been PROVEN to be corrupt and quite capable of (back to 1996) conspiring to commit wrongdoing expressly for personal agendas and gain (and the SEC has fined these people also). Some people have wondered that these fines were given so to avoid actual criminal investigations (special deals for special friends). Specifically, Douglas Wright (Com Dev) former President of , and President Emeritus of the University of Waterloo, and MENTOR to Michael Laziridis RIM CEO and Chancellor of the University of Waterloo, has been fined and removed from the Board of Directors for wrongdoing as far back as 1996: A VERY IMPORTANT PRECEDENT! Supporting my serious allegations of wrongdoing and conspiratorial cover up to obstruct justice. Forbes lists Douglas Wright as a multimillionaire on the boards of directors of companies in the US, Canada, and the UK. And Douglas Wright is now (in writing) a proven liar and cheat who gives deliberate SIGNED FALSE ASSURANCES for his personal agendas , gain and hubris. And he gave deliberately FALSE SIGNED ASSURANCES for US federal funds to PHS/NIH! He committed felony

fraud and subsequently suppressed scientific research that the programs he cheated of funds were designed to promote. He cheated the taxpayers of money and advancements while corrupting federal programs and personnel. Why did the Wallstreet collapse and the Madoff ponzi scheme occur? Because of men like Douglas Wright! You can see the opposition I've had to face has been formidable. And you can also see that I'm NO QUITTER !

President Obama in recent testimony, Goldman Sachs had to admit that they sold paper to investors in which they describe the paper as “Sh###y” : they knew they were selling product of no real value. The Justice Department is using that concept as the basis for a fraud charge. Please note, sir , that the research at the University of Waterloo is described in official government documents as so bad it is “SH##!” .And the Administrators , specifically, Douglas Wright , knew this and went ahead and applied for U.S. Federal funding. This, too , is fraud. However, what is worst, they blocked scientific ideas which could benefit society and brought down health care costs. Even worst, they are blocking new research concerning environmental damage which has the potential to effect man's very survival. They are endangering everyone with their fraud. Are you going to treat them according to their criminal actions, or protect them?

Legal Precedent : 4 August 2010 President Obama restores rank of Vietnam General John D. Lavelle who was forced to retire as a two star general not a four star which he was because former President Nixon had withheld and hid classified material which would have cleared his name. I present you with evidence of secret government documents which prove my allegations. The difference between myself, and the General, he is dead and unable to benefit from the vindication, whereas I can continue the research which some respected scientists have already said it could be of PHENOMENAL importance to mankind. It will immensely benefit the people of the United States so you should wish to undo this wrong also.

THE EVIDENCE POINTS TO A CRIMINAL CONSPIRACY AS PER THE LEGAL DEFINITION : AND IT INVOLVED FEDERAL AMERICAN OFFICIALS .

The public is demanding accountability of the corrupt businessmen who have placed society in the mess it now finds itself. I am asking you for your help to finish serious work that is beneficial to mankind. Please review all the enclosed material supporting my claims and allegations : they will be made public domain on my website, www.cancerfraudbadbiotech.com so everyone may be equally judged. I stand behind my actions and beliefs , and the fact that history and the documented evidence serves as vindication. I can not continue the work without the help of good people to overcome the corruption. I hope you are such a good person.

Thank you,

Edward A. Greenhalgh

Point of research: do you care if a new type flu/ disease emerged causing hemorrhage of the lungs and there was NO immunity for the human race from it? No vaccine? How would this affect your children? No one would want to watch their children die; so don't you think we should do everything possible to prevent such a bad future from happening? Act now while we still can?
