formal title :

**IS THE PRIME MINISTER'S OFFICE
(PMO) COMPLICIT IN A CRIMINAL
CONSPIRACY ? FORMAL REQUEST
FOR THE RELEASE OF MATERIAL TO
BRING CRIMINAL CHARGES AND
AND UPHOLD JUSTICE THROUGH
THE CHARTER OF RIGHTS AND
FREEDOMS.**

Dear Prime Minister Harper,

I am making a formal public request for the release of RCMP documents and Ministry of Health material described in the accompanying associated layered letters . The material will be presented to President Obama of the United States as it will subsequently prove federal U.S felony fraud against the United States government. There is NO statutes of limitations for felony fraud committed against the US federal government. The material also outlines how my, a Canadian citizen's Charter of Rights

and Freedoms have been violated by a criminal conspiracy perpetrated by officials of the University of Waterloo. This will publicly prove whether or not the Charter is a legitimate and realistic venue for the Canadian people to use and be proud of; or a complete useless fraud promoted only so pompous elite may use propaganda to feel good about themselves. The request is to be PUBLIC DOMAIN/ INTERNET so no further conspiratorial games may be used by corrupt politically connected rich business people to evade justice. The only result of your refusal to release the requested materials is to prove to the public that you are neither an honest leader or a man guided by principles of justice and fair play. Irregardless of any actions you subsequently take, the fact is made that the documents EXIST ! And they prove criminal fraud as alleged , plus other unto do activities. The issues are all in the best interests, and of the public good. Thank you.

Edward A. Greenhalgh

The material has been compiled over a broad period of time so proper scientific arguments and legitimate grievances could be made, and because of the poverty imposed on me by the black listing : nothing frivolous, nor malicious , nor vexatious has been made, only the attempt to achieve justice against very bad odds.
