

18 Nov 03 Dear Hon. Paul Martin,
Please see the attachment sent to Bono of U2 , who spoke about Canada's commitment to AIDS at the liberal convention. If your staff does nothing else , read Mass Extinction/SARS from the menu of my website , www.cancerfraudbadbiotech.com . The center of Excellence program is a fraud cheating the taxpayers of research and monies while only promoting the doofus children of the elite. I am asking the world community for help. On the website you will find material sent directly to Sheila Copps , Alan Rock, Jean Chretien, Ann McLellan among others(even a reply from your old friend Brian Mulroney). Perhaps you are wiser than those before you and can find a wise answer. I will include this email in my revision of the website. Thank you.
Edward A.Greenhalgh

17 Nov 03 Dear Bono, recently you spoke at the Canadian liberal convention about AIDS. AIDS will not be defeated if all people do is talk, I know because I've been blacklisted by the Canadian government. See my website www.cancerfraudbadbiotech.com and look at the letter to the CEO of the Bank of Nova Scotia concerning AIDS research. On this large website are my concerns about Africa and AIDS and I do believe I have influenced policy by my persistence. From the menu also read Mass Extinction/SARS. Please ask Paul Martin about me the next time you talk . Thank you. Edward A.Greenhalgh
