

MISSION STATEMENT SUMMARY

- (1) Expose the injustice, corruption and collusion that exists today in the Canadian and American University R&D communities;
- (2) Have case re-opened into the corruption of Canadian and American Universities;
- (3) Further funding for my research;
- (4) Protecting your tax dollars from mindless Government waste and patronage;
- (5) Promoting a friendly institutional environment, enabling me to continue further research into cancer with fellow scientists who aren't in constant fear of reprisals from either the U.S. or Canadian governments;
- (6) To encourage freedom of expression through scientific endeavours; and
- (7) To investigate and prevent the dangers of bad biotechnology so your tax dollars aren't wasted and the lives of your family and friends are saved.
